

EDP+ w/ LOOPIV

The Echoplex Digital Pro Plus features LoopIV, the fourth-generation Loop™ software from Aurisis Research. New functions and features include:

- Half Speed** Instantly change loop speed at any time
- Real-Time Granular Looping Presets** Store and recall parameter settings
- Substitute** Replace portions of the loop while it still plays
- SyncRecord** Easily record in sync without quantizing
- Sync ReAlign** Shift loops in and out of alignment with external loops
- BPM Tempo Select** Set the BPM before recording
- Flexible Quantization Options**
- Loop Windowing** Move loop windows over a larger loop

- Loop Dividing** Work on rhythmic subdivisions of a loop in real-time
- New Control Interface Modes** Replace, Flip, Stutter, Expert, Input
- Expanded MIDI Control** Including full Sysex implementation
- Improved Display**
- Parameter Presets**
- 16 Loops**
- Many more features.** For a complete list of EDP+ features visit www.gibsonechoplex.com.

THE ECHOPLEX STANDARD

Echoplex set the standard for looping and real-time sampling with these features:

- 16-bit real-time digital loops
- 198 seconds loop time
- Playback and record simultaneously
- Play backwards guitar parts live
- Digital Delay with Tap Tempo
- CD quality recording
- Tapped loop recording so loops are captured on the fly
- Unlimited overdubbing while loops continue to play
- Multiple Undo's of overdubs
- Real-time Feedback with knob or foot controller
- Loop Multiply
- Insert
- Reverse
- Replace
- Multiple Loops with flexible control over loop Switching
- Sampler-like loop triggering with velocity control
- Real-time copying for creating loop variations
- MIDI clock sync, Pulse sync, and BrotherSync options
- Quantized or free-form control options
- Rugged 19" rack mount chassis
- Internal power supply (no wall-wart!)
- Easy to see display
- CD quality audio

FOOT CONTROLLER

The Echoplex foot controller is a fundamental tool for live performance, accessing all of the unit's main functions — recording loops, overdubbing, reversing and deleting.

STILL THE ULTIMATE IN LIVE LOOPING

Gibson's **Echoplex** has been the loopers' standard ever since the days of analog tape loops. The Digital Pro Plus once again raises the standard to a new level of intuitive and flexible playability.

EDP+

ECHOPLEX DIGITAL PRO PLUS

With LoopIV software – developed specifically and exclusively for the Echoplex – the EDP+ is the ultimate tool for live looping and real-time sampling.
